

Jui Tan

Managing Partner, Lanchi Ventures

Jui Tan is the Managing Partner of Lanchi Ventures. He started his venture capital career with BlueRun Ventures in Silicon Valley US during 2001 and subsequently helped the firm to expand its presence in Asia. With over 20 years of venture capital experience, Jui has been recognized among the top 50 venture capitalists worldwide by Forbes Midas List.

Jui is an active early stage investor in AI, deep tech and renewable technology sectors. He has led and participated in early investments of Genspark, Li Auto, Agibot, Galbot, PPIO, UniUni, TCab, Ganji/58.com and a number of high growth technology companies.

Prior to joining the firm, Jui held various management and engineering positions at Singapore Telecom and IBM. Jui received his Bachelor of Engineering in Electrical & Electronic Engineering from Nanyang Technological University, Singapore, and M.B.A. from the International Institute of Management Development (IMD) in Lausanne, Switzerland.
